

The New “Claw PRO” Golf Glove

Just in Time for Christmas

by Bill Cromwell, Publisher

Want to get your golfer the perfect Christmas gift? CaddyDaddy Golf just introduced its newest golf glove, and you see it here first! The new “Claw PRO” glove is ready for your golfer to wear in style, then grip-it and rip-it! Golf gloves are one thing that golfers can’t have enough of — well, besides golf balls, which they lose far too often. Gloves are a bit harder to lose in the woods.

I’ve been using the “original” CaddyDaddy Claw golf glove for about two years and love the feel and great grips. My take, no other glove grips like the Claw — best gripping golf glove I’ve ever used. Plus, it’s a bonus that when it gets nasty dirty, I can toss it into the washer rather than the trash. After a quick wash, it’s as good as new once again. The glove’s flex-mesh upper allows excellent airflow, so on those hot days, your hand stays cool — and grips like a Claw!

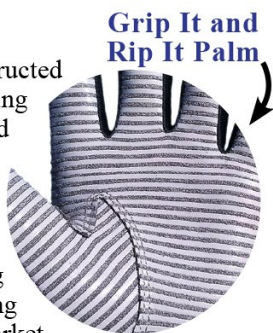

▼Original

▼PRO

The Claw PRO has many of the sought-after attributes found in the original Claw Glove with some added stability and grip. The Pro has a synthetic suede and mesh top that provides excellent stability and ventilation. It’s designed for players with higher swing speeds and/or those that like a tighter fit. Plus, the PRO increases club control.

Both CaddyDaddy Claw gloves are constructed with advanced synthetic materials providing amazing grip and comfort with extended durability over traditional leather gloves. Think of the tacky gloves a wide-receiver uses to make those leaping one-handed grabs for a touchdown. The Claw glove has that same type of gripping tackiness. I love it! This game-changing glove is truly like nothing else on the market —did I say it’s machine washable!

The Claw PRO has many sought-after attributes:

- Synthetic Suede and Mesh Top Provides Excellent Stability and Ventilation
- Silicone-Web Coating on Palm, Thumb and Index Finger Enhances Amazing Grip
- Looks New Longer than Leather
- Palm will not Crack, Harden, or Tear
- Remarkable Comfort and Performance
- Lasts 3-5 Times Longer than Most Leather Gloves
- Produced with 100% Synthetic Materials
- Machine Washable
- Conforms with the Rules of Golf

MACHINE WASHABLE

Want a great gift for your golfer or yourself? CaddyDaddy’s Claw PRO Golf Gloves will be available mid-December in men’s LH and RH sizes: S, M, L, XL, Cadet M, and Cadet L. It retails at \$24.99 and is available at www.caddydaddygolf.com, Amazon, and select retailers. The original Claw glove retails at \$21.99 and is also a fabulous golf glove.
